

Plan Ahead

DELAYS AND DETOURS COMING TO SR 16, SR 166 AND ANDERSON HILL ROAD

TIPS ON GETTING AROUND DURING CONSTRUCTION:

- Expect delays, and plan extra time in your trips.
- Detour routes will be provided for all closures. Find maps here: www.wsdot.wa.gov/projects/SR16/andersoncreekfishbarriers/default.htm
- Reduce discretionary trips if possible, follow local media for updates.

Between June and November, 2016, WSDOT will replace outdated culverts that connect Anderson Creek to Sinclair Inlet with large box culverts to improve fish passage for a variety of salmon species. The culverts run under SR 16, SR 166 and Anderson Hill Road near Port Orchard and Gorst. This work is part of WSDOT's Fish Passage Barrier Removal Program, which replaces old culverts under state highways that are barriers to fish passage.

What to Expect

- 4-6 week full closure of SR 166 at SR 16 beginning mid-June*
- Additional 6-week closure of westbound SR 166 at SR 16 beginning mid-July*
- 6-8 week full closure of Anderson Hill Road beginning late August*
- SR 16 detours in highway median; reduced speed limit

* specific timing of closures and detours subject to change
